

Exchange Active-Sync Configuration.

DISCLAIMER: You must backup all important information from your inbox. The author of this document assumes no responsibility for any data loss. Exchange Active-Sync may not be supported by the DOE.

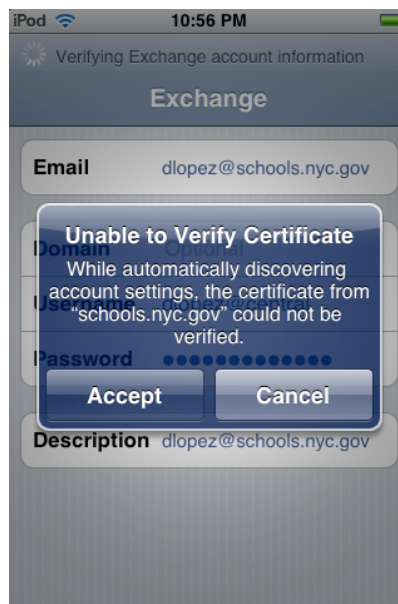

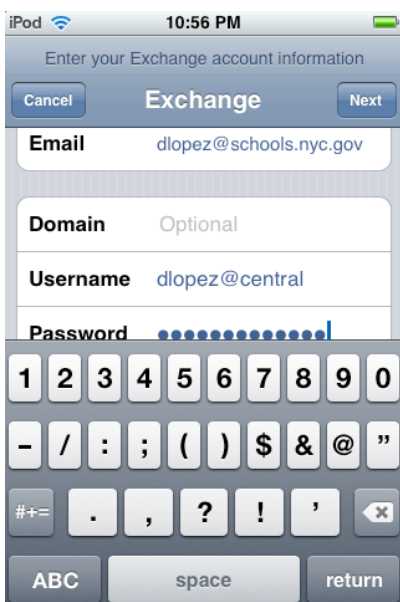

Step 1

Open the mail icon from the main screen and select Microsoft Exchange.

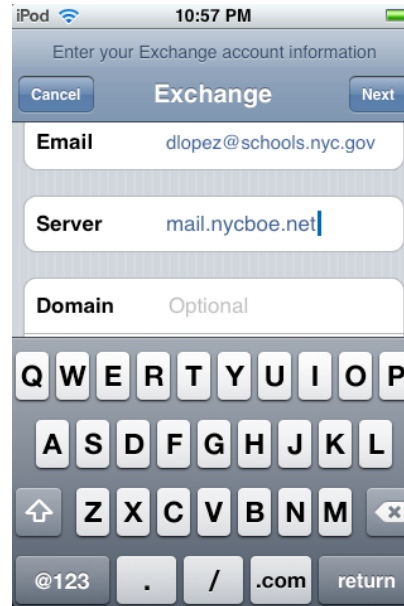

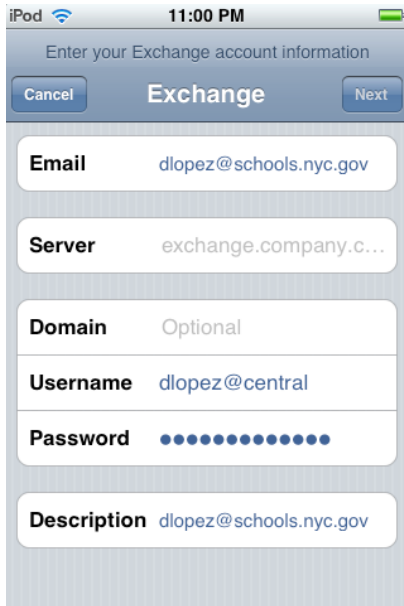

Step 2

Enter the information as shown below. You may see a certificate error, simply press "accept" to continue.

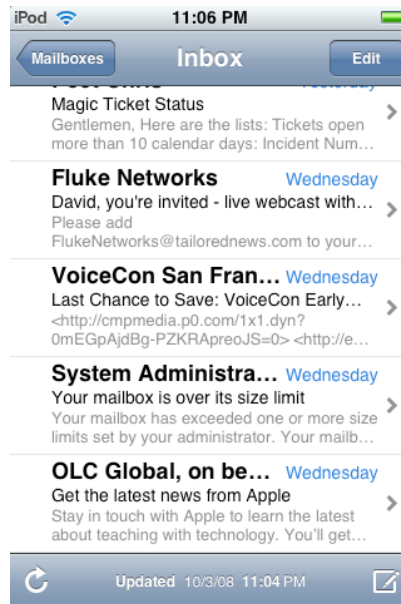

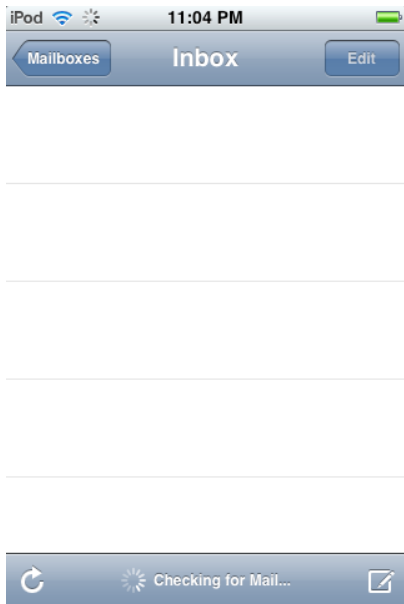

Step 3

A new field called “Server” should now appear. Type in **mail.nycboe.net**

Step 4

It will take a few seconds for your email to download.

Step 5 (optional)

You may want to adjust some mail settings. Go to settings then Mail, Contacts, Calendars..
